**NEGRI LEARNING CENTER**

List of Instructions for completing the Application for Financial Aid

Please read these instructions carefully and fully before starting!

- 1.) General: Answer all questions. Print or write legibly. Incomplete or unreadable applications will not be considered.
- 2.) “Amount of aid sought”... By policy, students are always expected to pay a portion of their tuition. Full scholarships are almost never given.
- 3.) Information on your family are intended to help the Scholarship Committee assess your financial need. If one or both of your parents are deceased please indicate this here. If you are not sure about the income level, have one of your parents answer this one.
- 4.) Read all questions first before answering. Please think about your answers before writing them down. Try to be succinct and to the point, fitting your answer to the space allowed, if possible. If you feel you need more space in order to answer any of the questions, you may attach an additional sheet of paper, numbering your answers to correspond with the number of the question.
- 5.) The application must be signed and dated by you. A parent’s signature is required if you are under 18. An application will be automatically rejected if this is omitted.

Note: All qualified scholarship applications are reviewed by the Scholarship Committee of the Negri Learning Center. Scholarships are awarded on the basis of availability of funds, the number and amount of requests, and the recommendations of NCL Staff. Applicants should not assume that any specific aid amount will be granted. No staff member is permitted to assure the availability of financial aid prior to the Committee’s review.
